

Graduation Gift Tracker

Every grad, every card, every dollar, all on one page

jentriedit.com

Graduation season sneaks up as a stack of parties, and it is easy to lose track of who you have covered. Set your **season budget** first, then fill one row per graduate. Check the boxes as you go so you know at a glance what is written, what is handed off, and who still owes you nothing but a thank-you.

Set this once, before you start buying.

Two things that save you later

Mailing one? Write a do-not-bend note on the envelope and drop the cash in the card sleeve so it cannot slide out. **Buying in bulk?** Fill the whole row before you seal anything, so a sealed card never hides an empty amount box.
